SKILLS

- PYTHON & MYSQL
- REGRESSION
- DATA VISUALIZATION
- MACHINE LEARNING
- DATABASE MANAGEMENT SYSTEM
- PROBABILITY AND STATISTICS

AREAS OF INTEREST

- DATA SCIENCE
- DATA ANALYTICS
- DEEP LEARNING
- CYBERSECURITY

EDUCATION

MSC INTEGRATED DATA SCIENCE
AMRITA VISHWA VIDYAPEETHAM
2023-PRESENT

HIGH SCHOOLING

NARAYANA PU/CBSE COLLEGE
2022-2023

SECONDARY SCHOOLING

AKSHAYA PUBLIC SCHOOL
2020-2021

PROFILE

Integrated M.Sc. Data Science student with a strong foundation in probability, statistics and database management systems. Proficient in Python and MySQL, with hands-on knowledge of regression analysis, machine learning and data visualization. Skilled in analyzing structured datasets and developing predictive models, with a strong analytical mindset and a strong interest in transforming data into actionable insights.

ACADEMIC PROJECTS

ONLINE COURSE PORTAL SYSTEM

AUG - OCT 2025

- Full-Stack Architecture: Developed a scalable web-based course management platform using Python Flask and HTML to integrate dynamic user interactions with backend academic workflows.
- Database Engineering: Designed and implemented a fully normalized MySQL relational database schema with multiple entities.
- System Optimization: Implemented secure authentication, session handling, and real-time enrollment and attendance tracking with transaction-safe database operations.

Tools & Technologies: Python, Flask, MySQL, SQL, HTML, Bootstrap.

ACADEMIC RESEARCH

- Karthika, Jivin C, Rahul Reddy, Aniruth, Aahash , " **Energy-Aware Ultra-Reliable Low-Latency Communication for Healthcare IoT in Beyond 5G and 6G Networks** ".

CERTIFICATIONS

- Python for Data Science, AI & Development
- Supervised Machine Learning: Regression and Classification
